

SAAD MUGHAL

GAME DEVELOPER

I am adept in game design using Unity and currently broadening my skills in Unreal Engine and Godot. Proficiency in Blender allows me to excel in 3D modeling, while my expertise extends to Adobe suite tools such as Photoshop, After Effects, and Premiere Pro. I have a distinct fondness for pixel art and engage in cosplay, creating original costumes and 3D props. Furthermore, I indulge my hobby of reading comics, which fuels my enthusiasm for continuous learning and exploration.

2019

Chroma Borealis

GAME DEVELOPER
INTERN

Conceived and executed the development of a unique mobile game from inception to completion, implementing creative ideation and technical expertise throughout. Orchestrated the successful launch and publication of the game on the Google Play Store, effectively navigating the app submission process and ensuring its accessibility to a wide audience. Demonstrated proficiency in game design, development, and deployment, contributing to the mobile gaming industry with an innovative and engaging product.

2021

Better World Makers

H R
INTERN

Proficiently managed the resume review process for potential jobseekers, meticulously assessing their credentials. Facilitated seamless onboarding by furnishing essential prerequisite information, ensuring a streamlined and comprehensive initiation into the organization.

2016 onwards

FREELANCER

I have garnered extensive experience as a freelance graphic designer since 2016, engaging in diverse projects facilitated by platforms like Fiverr. Moreover, I collaborated with my school as a graphic designer. Concurrently, I operated independently as a Game Coaching Specialist on Fiverr while also establishing and overseeing the operations of an innovative online boutique specializing in custom-designed t-shirts.
