Boycott Israeli Products

Today I will be talking about what we, as individuals, can do to support palestine. It's something really obvious but it was something I never really thought about and that's boycotting Israeli companies and their products.

You'd be surprised to know how many israel products we use in our daily lives, it's no wonder israel's wealth is endless and US is basically their guard dog

Just to name a few:

L'Oreal

Nestle

Coca-Cola

Johnson & Johnson

Nokia

Revlon

Intel

Starbucks and

Mcdonalds

These are just some we're most familiar with but I counted at least 100 during my research.

On 7th October Mcdonald's said: "We intend to donate thousands of meals every day to soldiers in the field and in drafting areas, and this is beyond a discount to soldiers coming to restaurants." It also said that it opened 5 new restaurants just to fulfill its pledge.

I know how difficult it is to boycott something that's been a huge part of your life but this is the least we can do for our palestinian brothers and sisters.

My Views

We should make a resolution where we choose at least 1 company or product and refrain from it for 1 year. Then they'll see how their numbers drop. We're the one's supplying Israel with mass murder weapons.

In conclusion, just pick 1 product and boycott it for 1 year. To each his own.

My Questions

Why isn't Pakistani news spreading awareness of boycotting products and letting people know which products are from Israel?
