⚙ Further limit the reach of your ads

Save audience

Paid ads

- * Awareness vs Engagement campaign

- * Traffic vs Sales campaign

Only difference in Ad sets: define performance goals for each objective

- * WhatsApp conversion rate is very high, but can go ahead with Instagram DMs and Messenger DMs as well

Paid ads

- * Location: select specific city, specific societies, exclude specific societies
- * Age: depends on the product, buying power, buyer vs consumer eg toys, children's clothes → buying persona → personal information + interaction history

Detailed audience targeting: demographics vs behaviors vs interest

Demographics: who they are on paper

- * Interests: what people engage with on Social Media apps

Behaviors: past actions, purchase behavior, device usage, and travel habits. It's action-based targeting

Scenario 1

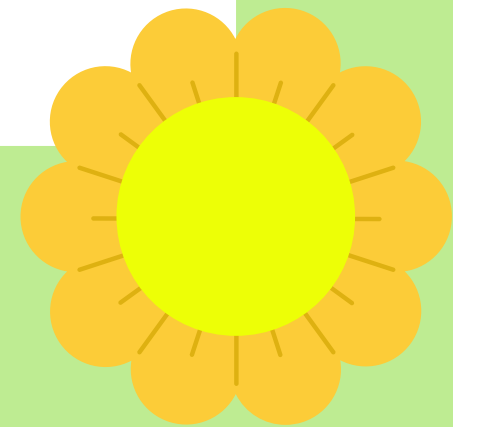

You are running ads for a brand that sells organic baby shampoo.

Options

Demographic

Interest

Behavior

Scenario 2

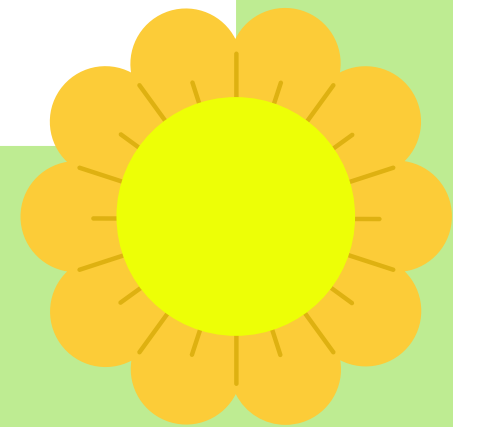

You're promoting a burger shop offering discounts.

Options

Demographic

Interest

Behavior

Scenario 3

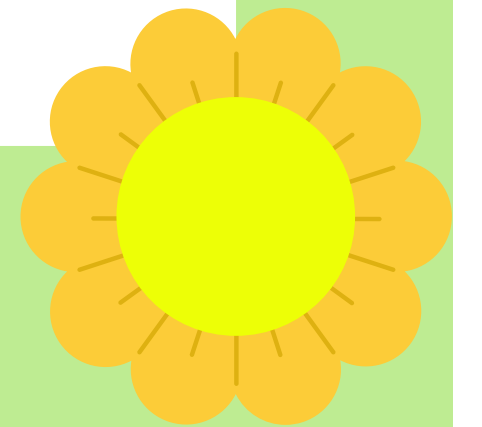

You are selling birthday gifts

Options

Demographic

Interest

Behavior

Paid ads

- * Dynamic ads that automatically show the most relevant products from your catalog to each user based on their behavior (like views, add-to-cart, or past purchases).

Best for:

- * Businesses selling multiple products
- * Those with a product catalog in Meta Commerce Manager
- * Websites with Meta Pixel or Conversions API installed
- * Brands wanting automated retargeting and personalized product ads

Paid ads

✱ KPIs to measure result of each campaign

- CPM: Cost Per Milestone (10,000 impressions)
- CPC: Cost Per click
- CTR: Click Through Rate (10 people clicked over 100) = 10%
- Reach: Unique
- Impression: One person can see the same add multiple times
- Ad frequency: impressions / reach
- CPL: Cost Per Lead
- Conversion rate: purchased/ clicked
- CPV: Cost Per View
- ROI: Return on Investment
- ROAS: Return on Ad Spent

Paid ads

* KPIs to measure result of each campaign

- CPM: Cost Per Mille (10,000 impressions)
$$\text{CPM} = (\text{Total Spend} / \text{Total Impressions}) \times 1000$$
- CPC: Cost Per Click
$$\text{CPC} = \text{Total Spend} / \text{Total Clicks}$$
- CTR: Click Through Rate, the % of people who clicked your ad after seeing it.
$$\text{CTR} = (\text{Clicks} / \text{Impressions}) \times 100$$
- Reach: the number of unique people who saw your ad at least once.
- Impression: The total number of times your ad was displayed, including multiple times to the same person.

Paid ads

* KPIs to measure result of each campaign

- Ad frequency: the average number of times each person saw your ad.
$$\text{Ad frequency} = \text{Impressions} / \text{Reach}$$
- CPL: Cost Per Lead, the cost you pay to get one lead (signup, form fill, etc.).
$$\text{CPL} = \text{Total Spend} / \text{Number of Leads}$$
- Conversion rate: $(\text{purchased} / \text{clicked}) \times 100$
- CPV: Cost Per View (Videos)
$$\text{CPV} = \text{Total Spend} / \text{Video Views}$$

Paid ads

* KPIs to measure result of each campaign

- ROI: Return on Investment
$$\text{ROI} = (\text{Net Profit} / \text{Cost of Investment}) \times 100$$
- ROAS: Return on Ad Spent
$$\text{ROAS} = (\text{Ad Spend} / \text{Revenue from Ads}) \times 100$$

Paid ads

Always compare your results to

Past campaign performance

Industry averages

Campaign goal (cheap awareness $\neq$ high ROAS)

Campaign Type	Key KPIs to Watch	Good Result Means...
Awareness	CPM, Reach, Frequency	You're getting cheap reach, not spamming same people too much
Traffic	CPC, CTR	People are clicking your ad at low cost
Engagement	CTR, Likes, Comments, Shares	People are interacting with your content
Leads	CPL, Conversion Rate	Leads are coming in at a good cost
Sales	ROAS, Conversion Rate, CPC	You're getting profitable purchases

Paid ads

Can do manual testing

* Campaign needs to be published for A/B testing

4

Social Media Content Types

Purpose: Show your product, promotions, testimonials, or tips.

Stay permanently on your profile grid.

POST

STORY

Features: Polls, questions, countdowns, music, tagging

Stories show up at the top of Instagram/Facebook when someone opens the app.

REEL

Best way to reach non-followers.
Reels appear on Explore pages
and bring new traffic to your
account.

Intended to go viral -> people to
your page

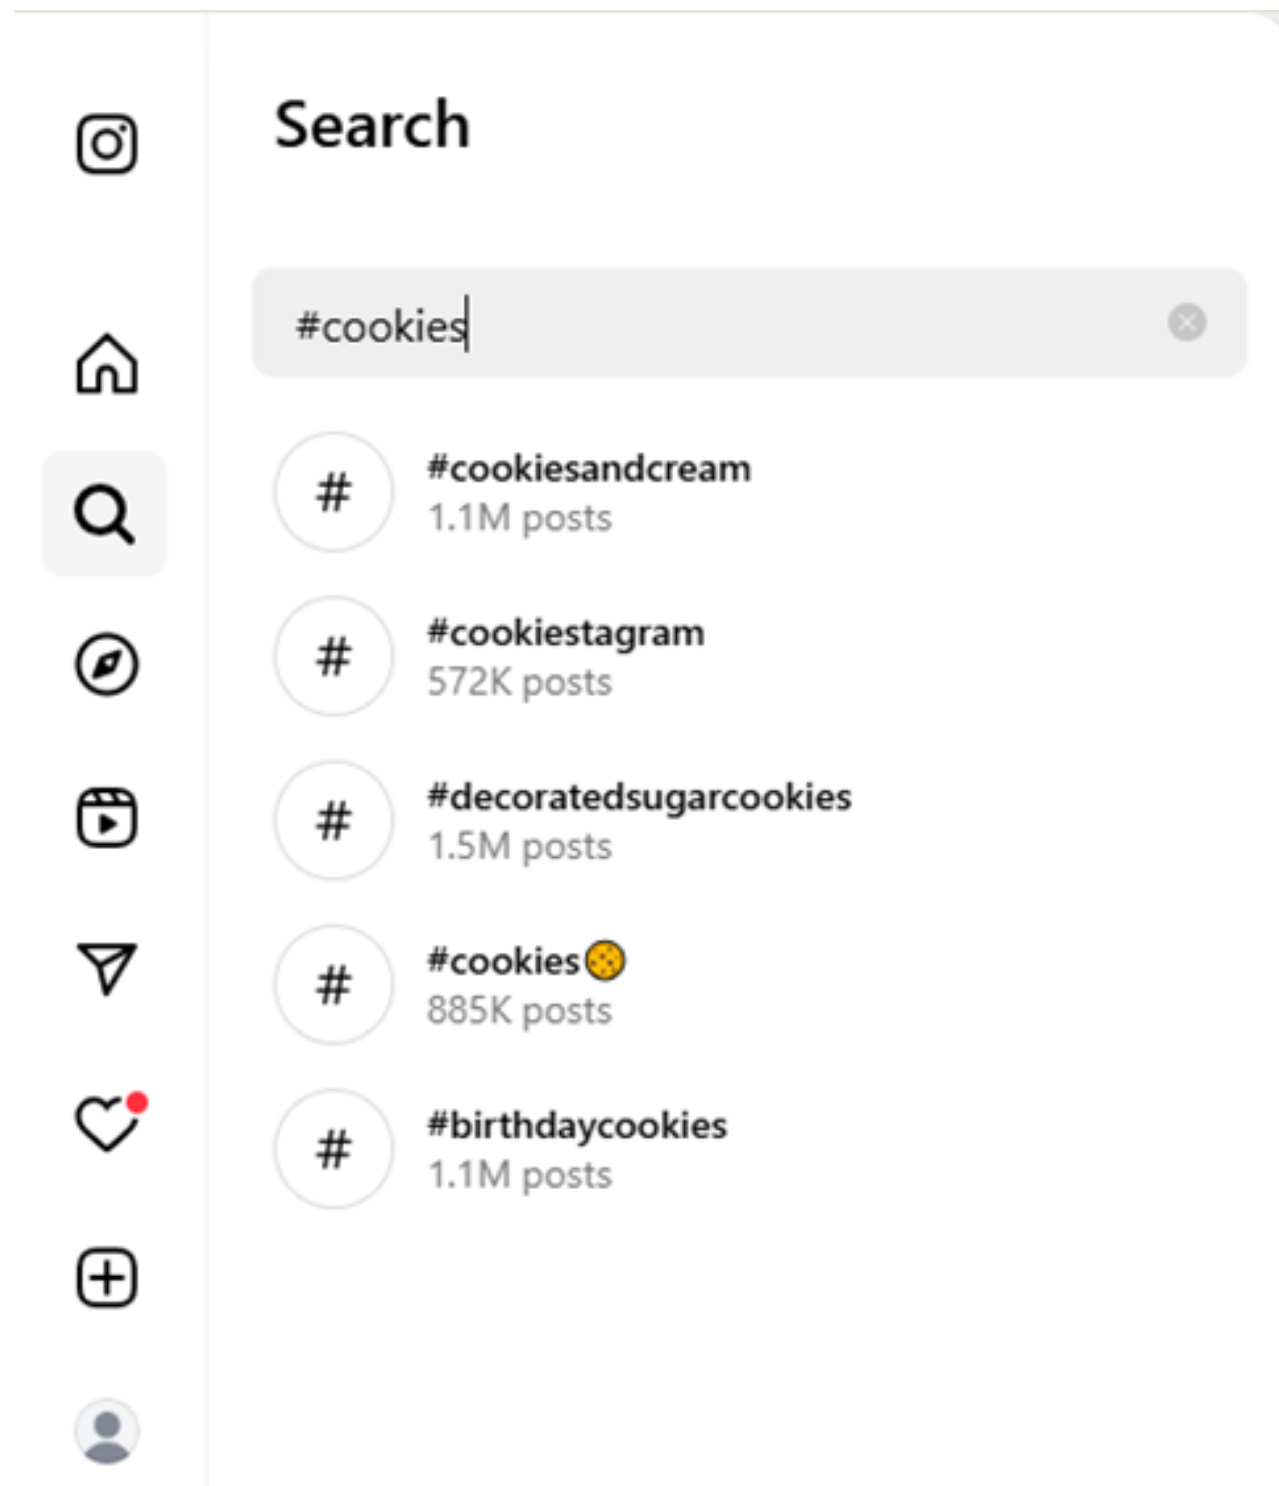

Stories: behind-the-scenes, polls

Lives: Q&A session teasers or
product demos

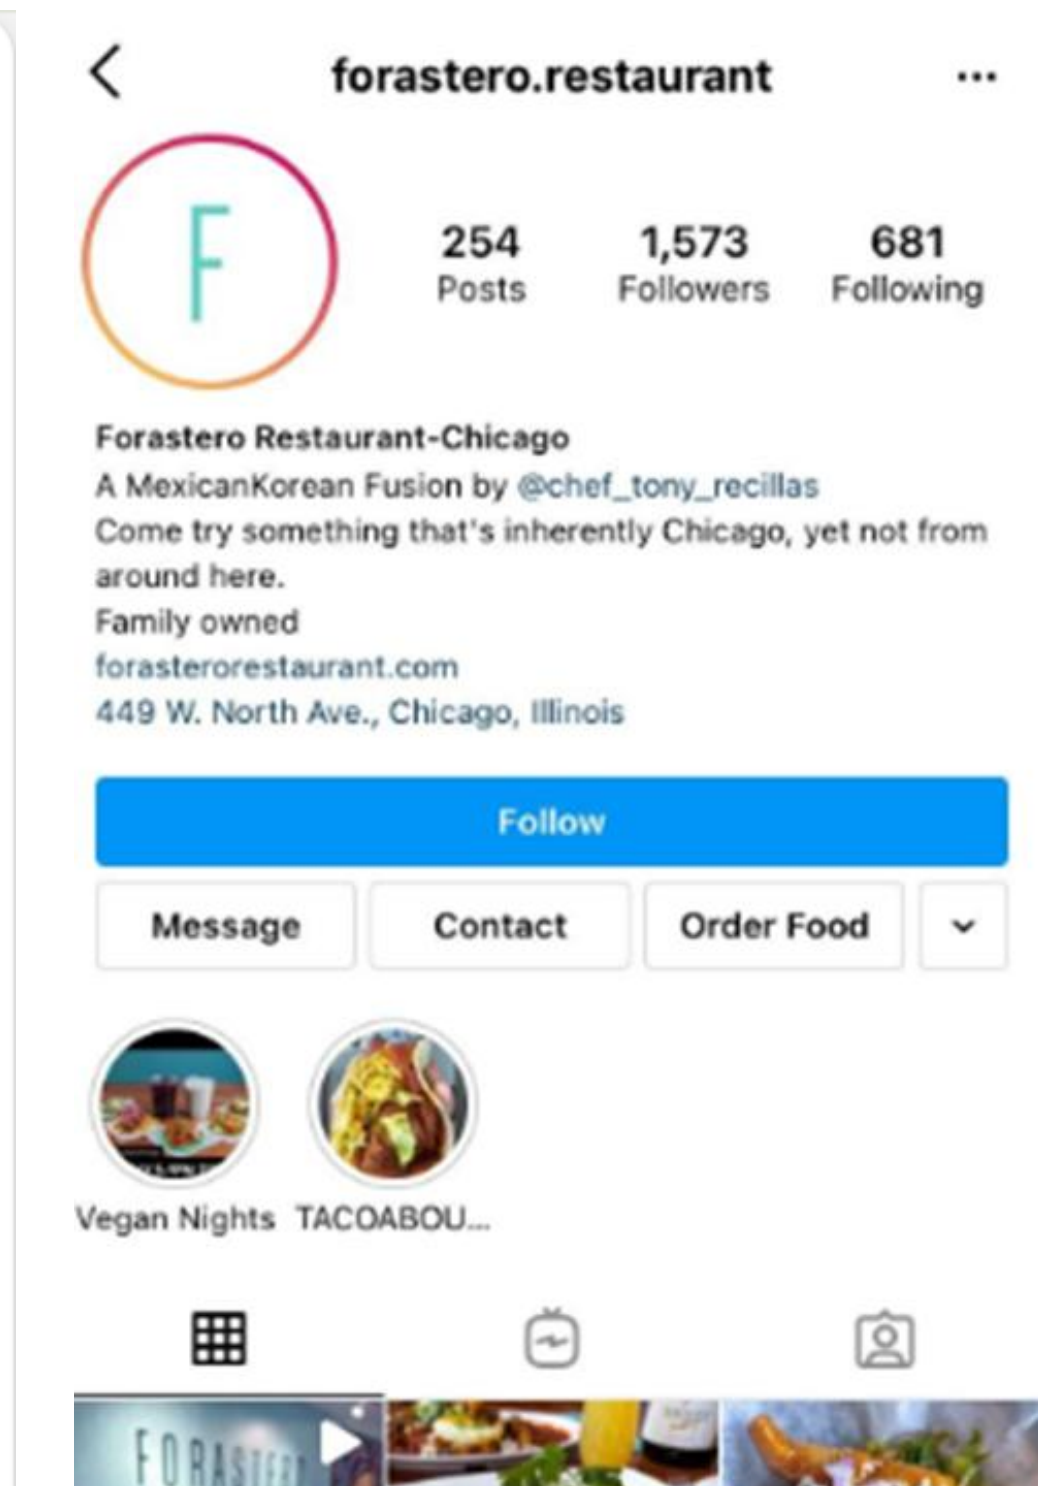

Hashtag

Organize content & reach new
audiences
2-3 popular + 2-3 niche/local ones

Hashtags with 10K-500K posts are
better than those with millions
(less competition, more targeted)

Hashtag

Call to Action
buttons

Swipe
up

DM

Most local businesses in Pakistan take orders via DM.

Always reply politely, and you can use Quick Replies on Instagram Business accounts.

Engagement

More engagement = more reach = more potential customers

Example:

Ask questions in stories

Polls in stories

This or That quizzes

Algorithm

The system that decides who sees your content and how often.

Link in Bio

WhatsApp, Linktree, Shopify, Website

End of Class
