

Assignment 1: Group Website Project

Objective

Create a small website for a brand of your choice to practice end-to-end setup in WordPress.

Scenario

Choose any brand (real or imagined). Using WordPress, design and implement a 5-page website that reflects the brand's look and messaging.

Group Rules

- Only approved group members may work on the assignment for that project.
- Group size: minimum 1 and maximum 3 students.
- Include the full names and roll numbers of all group members on the title page.

Requirements

- Pick a WordPress theme that suits your brand and apply it to the site.
- Create exactly five (5) pages for your site.
- Add a consistent header (logo/brand name + navigation) visible on all pages
- Add a consistent footer
- Enable a comments section on at least one page or post (e.g., Blog/News).
- Page builder requirement: Build at least 3 pages with Elementor. The remaining 2 pages may be plain/default WordPress pages.

Page Set (Suggested)

- Home (Elementor)
- About (Elementor)
- Products/Services (Elementor)
- Blog or News (Plain page or Posts page with comments enabled)
- Contact (Plain page with a basic form or contact details)

Step-by-Step Instructions

- Decide your brand name, colors, and basic messaging.
- Install WordPress on your hosting and confirm the domain opens WordPress.
- Install and activate a suitable theme.
- Install and activate Elementor (page builder).
- Create the 5 pages

- Build at least 3 of those pages using Elementor
- Design and apply a global Header and Footer so they appear on all pages
- Enable comments on at least one page or the posts listing
- Publish pages and ensure the site is visible at your domain
