

INTRODUCTION TO INFO. & COMM. TECHNOLOGY

2-11-2023

Loop

Repeating a set of statements for a set number of times

1. WHILE Loop
2. Do..While Loops
3. FOR Loop
4. REPEAT Until Loops

WHILE Loop - Format

1. Loop Variable (with initial value)
2. Condition in WHILE statement
3. Loop Body to repeat
4. Increment/decrement statement for loop variable inside the loop body

Ex-1

- Use while loop to print “ This is a hazy day today..” five times.

Ex-2

- Use while loop to print “ This is a hazy day today..” five times. Print “ This is All for now...” at the end of the program.
-

Ex-3

Write a code to print first 7 integers (1..7) using WHILE loop

Ex-4

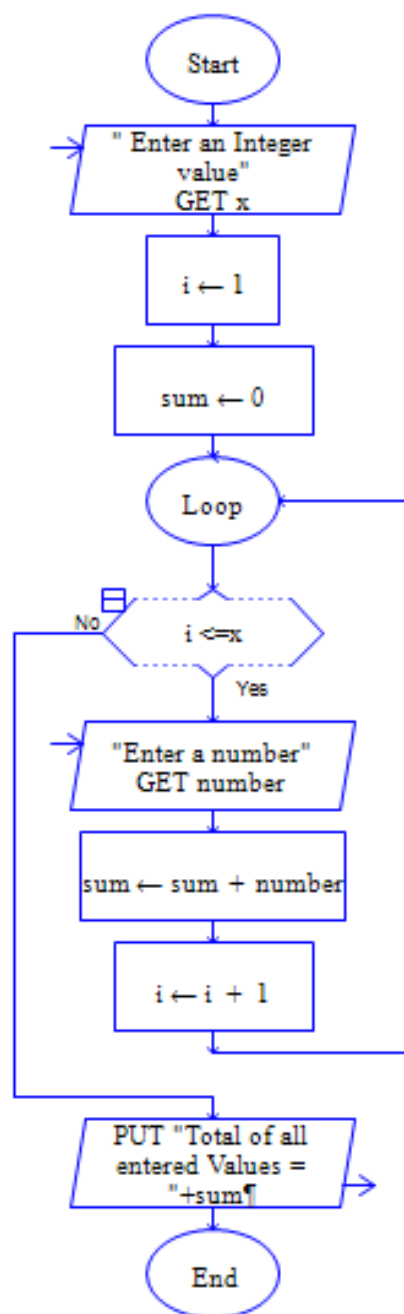

Write a code to print the sum of first 7 integers (1..7) using WHILE loop

Ex-5

Write a program to print counting from 10 to 1 (in reverse order) using WHILE loop

Ex-6

- Ask the user to enter an integer value, x
- Your loop should run x number of times
- Accept x inputs
- Add all entered numbers
- Display the final sum

Ex-7

Write code to display the square of first five integers using WHILE loop structure:

Square = 1

Square = 4

Square = 9

Square = 16

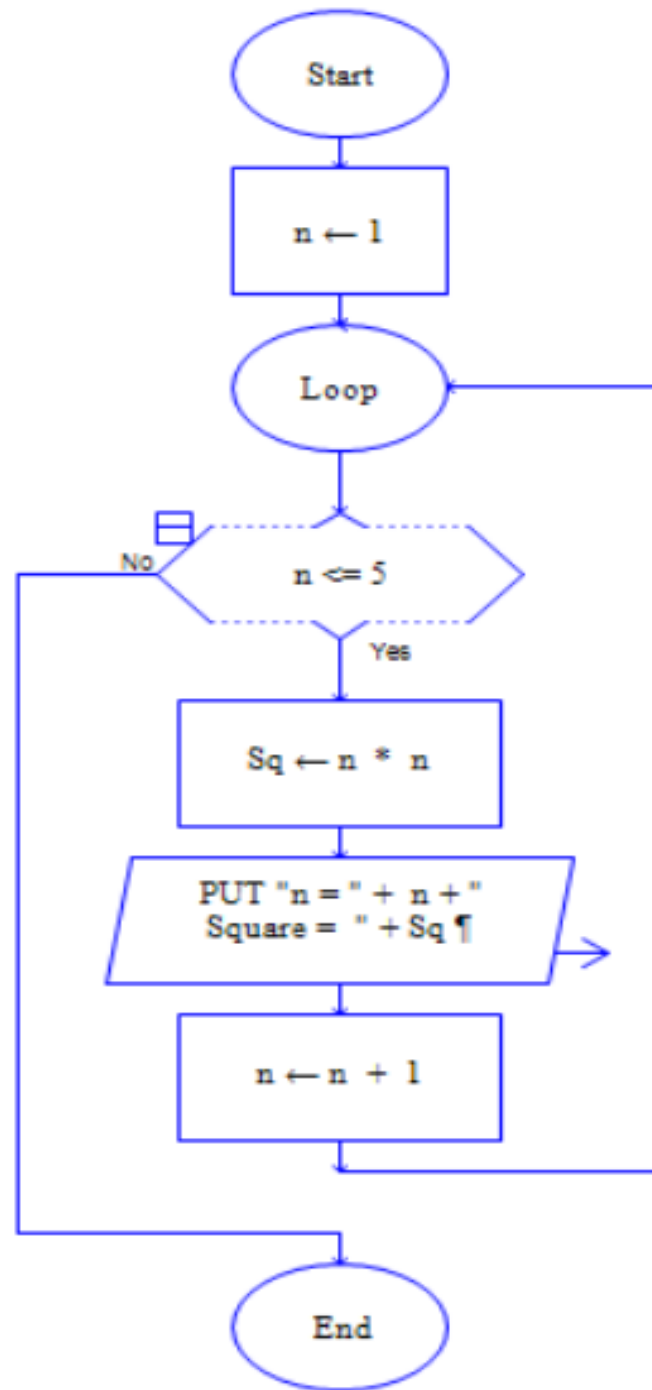

Square = 25

Ex-8

Write code to display first five integers along with their squares using WHILE loop structure

n = 1	Square = 1
n = 2	Square = 4
n = 3	Square = 9
n = 4	Square = 16
n = 5	Square = 25

Ex-8

Ex-9

Ask the user to enter a number. Write code to display the table of the given number in the following format using WHILE loop:

$$2 * 1 = 2$$

$$2 * 2 = 4$$

$$2 * 3 = 6$$

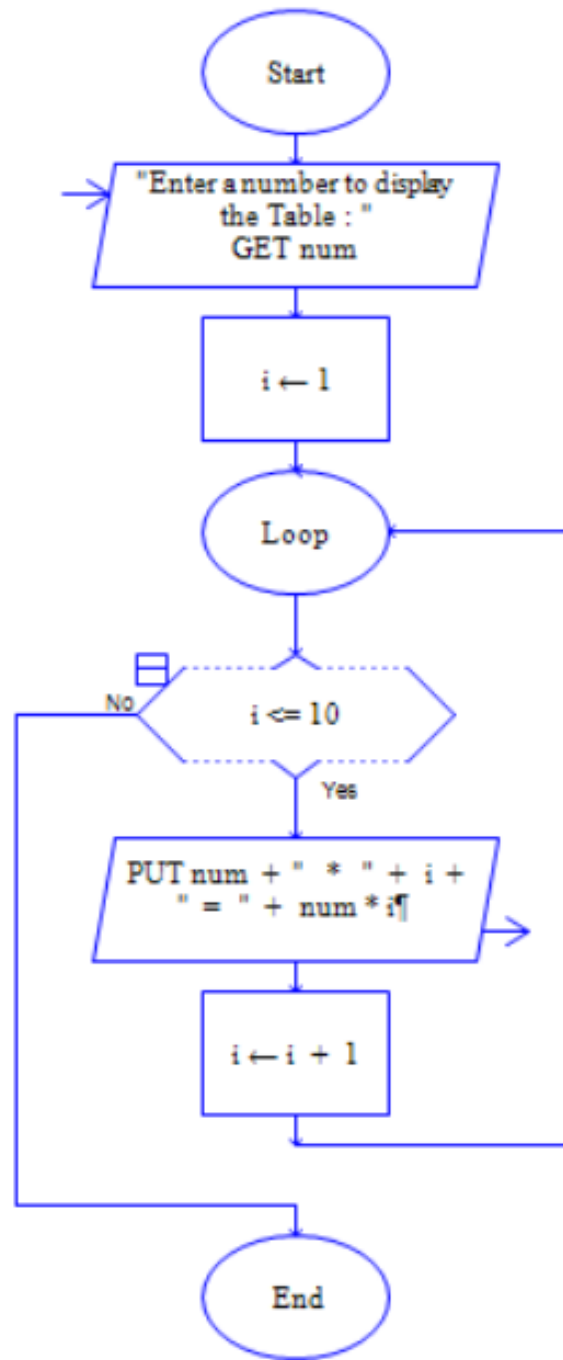

.

.

.

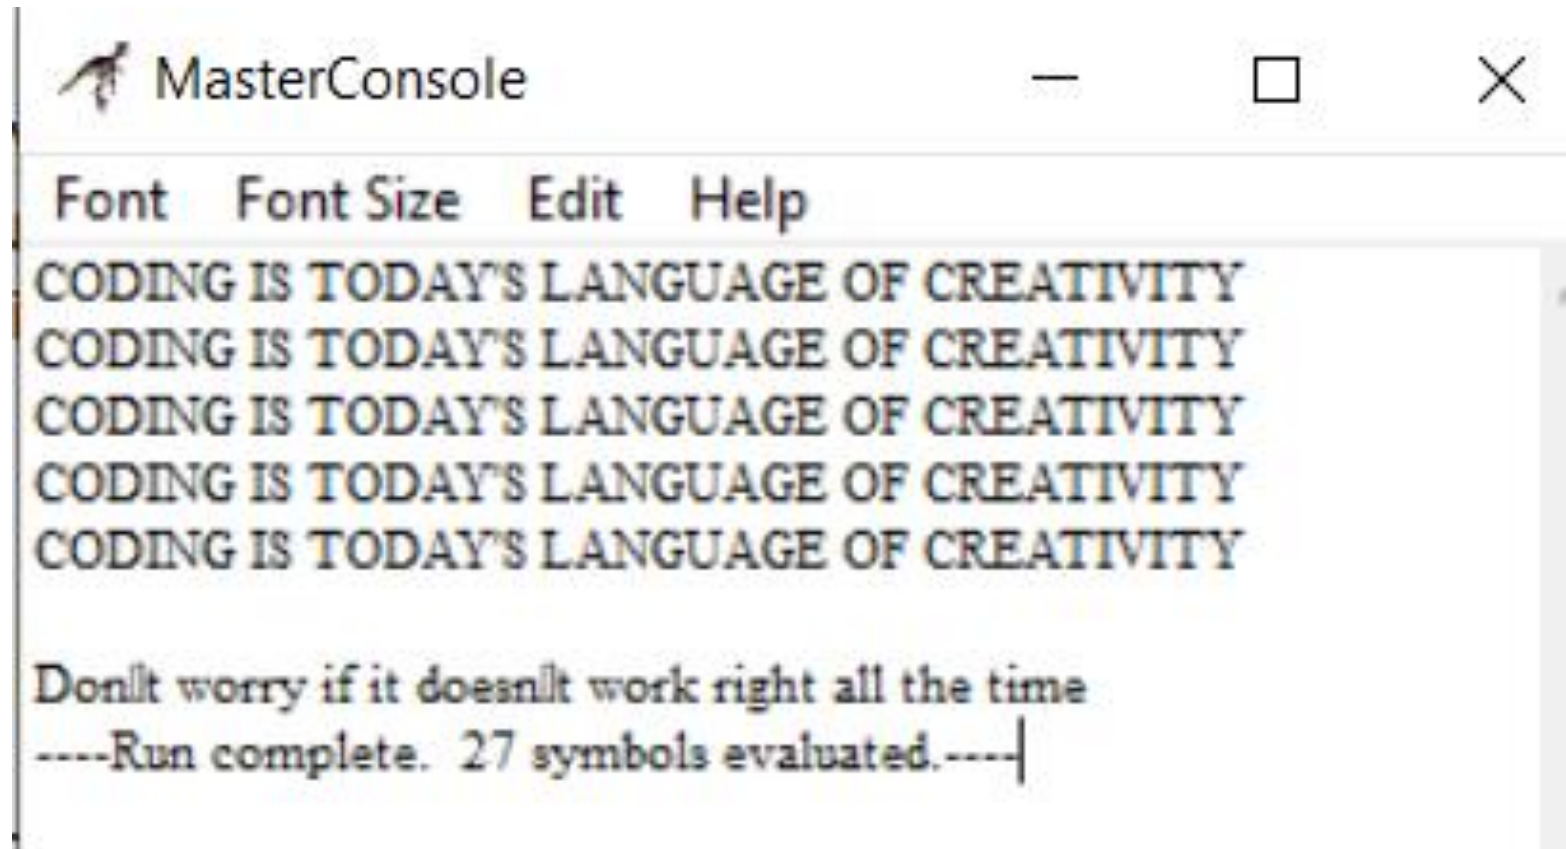

.

Ex-9

Ex-10

- Design a flowchart to display the following output:

The screenshot shows a window titled "MasterConsole" with a menu bar containing "Font", "Font Size", "Edit", and "Help". The main text area displays the following output:

```
CODING IS TODAY'S LANGUAGE OF CREATIVITY
CODING IS TODAY'S LANGUAGE OF CREATIVITY
CODING IS TODAY'S LANGUAGE OF CREATIVITY
CODING IS TODAY'S LANGUAGE OF CREATIVITY
CODING IS TODAY'S LANGUAGE OF CREATIVITY

Don't worry if it doesn't work right all the time
----Run complete. 27 symbols evaluated.----
```
